## (54) DELIVERY NETWORK SYSTEM AND TERMINAL EQUIPMENT FOR CONFIRMING DELIVERY INFORMATION

(57)Abstract:

PURPOSE: To reduce redelivery rate of delivery object and perform delivery efficiently.

CONSTITUTION: Delivery schedule is prepared based on the delivery information of home delivery service which pick up delivery objects at home delivery service agents 10-1 to 10-n. The planned delivery information is sent to a terminal equipment 42 at destination of delivery 40 based on the delivery schedule by utilizing no-ringing circuit, and delivery object is delivered to the destination after the planned delivery information is confirmed and corrected by the terminal equipment at the destination by a receiver at the destination 40.

## LEGAL STATUS

[Date of request for examination] 23.04.1999

[Date of sending the examiner's decision of rejection] 08.05.2001

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
